Marci Marie Webber

Plaintiff(s).

vs.

State of Illinois, IDHS,
DuPage Co. States Attorney
Second District Appellate Court

Defendant(s).

Case No. 10CF2643

1:20-CV-7807
JUDGE NORGLÉ
MAGISTRATE JUDGE KIM

EMERGENCY

COMPLAINT FOR VIOLATION OF CONSTITUTIONAL RIGHTS

This form complaint is designed to help you, as a pro se plaintiff, state your case in a clear manner. Please read the directions and the numbered paragraphs carefully. Some paragraphs may not apply to you. You may cross out paragraphs that do not apply to you. All references to "plaintiff" and "defendant" are stated in the singular but will apply to more than one plaintiff or defendant if that is the nature of the case.

1. This is a claim for violation of plaintiff's civil rights as protected by the Constitution and laws of the United States under 42 U.S.C. §§ 1983, 1985, and 1986.
2. The court has jurisdiction under 28 U.S.C. §§ 1343 and 1367.
3. Plaintiff's full name is Marci Marie Webber

If there are additional plaintiffs, fill in the above information as to the first-named plaintiff and complete the information for each additional plaintiff on an extra sheet.

[If you need additional space for ANY section, please attach an additional sheet and reference that section.]

2

(Defendants list may include more)

4. Defendant, Mary Flemming, Jennifer & Joe Lindt, Esq's
Dr. James Corcoran (IDHS) Dr. David Albert (IDHS) Dr. Robert Schout (IDHS)
Daniel Dyslin (IDHS legal) Richard Fernandez (IDHS)
 an officer or official employed by DuPage Co. State's Attorney's Office
 (department or agency of government)
& IDHS & State of Illinois or

☐ an individual not employed by a governmental entity.

If there are additional defendants, fill in the above information as to the first-named defendant and complete the information for each additional defendant on an extra sheet.

5. The municipality, township or county under whose authority defendant officer or official acted is DuPage County, IL. As to plaintiff's federal constitutional claims, the municipality, township or county is a defendant only if custom or policy allegations are made at paragraph 7 below.

6. On or about Dec 23rd, 2019 at approximately 11:00 ☒ a.m. ☐ p.m.
 (month, day, year)
 plaintiff was present in the municipality (or unincorporated area) of Elgin
DuPage Co. enroute to Chicago, in the County of DuPage Co.
 State of Illinois, at _____
 (identify location as precisely as possible)

when defendant violated plaintiff's civil rights as follows (Place X in each box that applies):

- ☐ arrested or seized plaintiff without probable cause to believe that plaintiff had committed, was committing or was about to commit a crime;
☐ searched plaintiff or his property without a warrant and without reasonable cause;
☐ used excessive force upon plaintiff;
☒ failed to intervene to protect plaintiff from violation of plaintiff's civil rights by one or more other defendants;
☐ failed to provide plaintiff with needed medical care;
☒ conspired together to violate one or more of plaintiff's civil rights;
☐ Other: See attached exhibits/affidavits * A-K *

Used false information & lack of appropriate service to force Marci Webber to return to IDHS custody by means of Appellate Stay, Caused more false information to be presented in court reports using group sheets for groups not held, provocation, exercising stress, poor sleep, abuse and outright fabrications instead of meeting the stated purpose of the stay and/or lifting the stay in accordance with dictates of Ex parte v. Louisiana the US & IL state constitutions & state law. Its retaliatory.

 Privacy, due Process & Equal Protection of the law have been violated —
 Defendant officer or official acted pursuant to a custom or policy of defendant ^{THIS IS FALSE IMPRISONMENT USING FRAUDULENT RETALIATORY METHODS.}

municipality, county or township, which custom or policy is the following: (Leave blank

if no custom or policy is alleged): To treat NGR1 acquittees

as if their Verdict was guilty but mentally ill and detain them wrongly as long as possible: In my case, after rightfully being released ^{And not providing a least Restrictive Environment}
 8. Plaintiff was charged with one or more crimes, specifically: ^{other constitutional rights such as in FOUCHA v. LOUISIANA}

1st degree murder; found Not Guilty by Reason ^{SCF.}
 of Insanity then wrongfully committed as if
 still both mentally ill and dangerous &
 Contrary to the State's strict requirement of

9. "Reasonable expectation to commit serious bodily harm on self or others" from the mental illness causing the initial crime
 (Place an X in the box that applies. If none applies, you may describe the criminal proceedings under "Other") The criminal proceedings

☐ are still pending.

? ☒ were terminated in favor of plaintiff in a manner indicating plaintiff was innocent.¹
 (NGRI acquittee)

☐ Plaintiff was found guilty of one or more charges because defendant deprived me of a

fair trial as follows _____

X Other: Plaintiff was found NGR1 June of 2012, was
 denied effective counsel's full, proper hearing for Commitment
 then after release Dec 11, 2019 forced back to ostensibly provide
 a "status quo" that was actually in the community (successfully)
 after the filing and improper notice of the State's "emergency"
 motion to stay the trial court's release using false information.
 The "Status Quo" prior to release was never reinstated. Plaintiff
 receives no therapy only abuse and is risked to COVID-19 virus.
 While being held in a mental facility to wait the outcome of the State's Appeal
 while her records are continued to increasingly be falsified on an acute unit.

[If you need additional space for ANY section, please attach an additional sheet and reference that section.]

10. Plaintiff further alleges as follows: (Describe what happened that you believe supports your claims. To the extent possible, be specific as to your own actions and the actions of each defendant.)

- After waiting nearly a decade under excruciatingly abusive conditions Judge George Bakalis ordered IDHS to transition Marci Webber out of custody on Sept. 18th 2019. On December 11th 2019 Judge Bakalis released Marci Webber, prose, to an apartment IDHS was apprised of weeks earlier & had an order to view. On December 20th ^{FRI} Marci Webber retrieved an "emergency" motion to Stay Judge Bakalis' decision via regular mail. Immediately she sought to respond and was told by the appellate court clerk she had until Dec 23rd 2019 to respond. At 8am on Mon. Dec 23rd 2019 Robert Hanrahan, P.I. & Marci Webber sought instructions at the 2nd district Appellate Court in Elgin, IL where they were given an order to Stay Judge Bakalis' decision. Later that morning Judge Bakalis was forced to sign a bench warrant. Defendant acted knowingly, intentionally, willfully and maliciously. Later that day Marci turned herself in to Chicago Read M. H. C. (IDHS)
11. Yes
12. As a result of defendant's conduct, plaintiff was injured as follows: Deprivation of liberty, refusal to give any form of near "Status Quo", refused therapy while receiving abuse instead & others that flow from an illegal detainment begun in June of 2012 in IDHS custody but focused on here after release on Dec 1, 2019. Photo
13. Plaintiff asks that the case be tried by a jury. ☐ Yes ☒ No

I, Marci Webber, prose,
attest that this complaint
which under the pains &
penalties of perjury is the
sworn truth has been
given to (or will be after an
address is found for a defendant)
Esther Ellison (SW) for all in
the US Mail. I will try to
get a process server, too.

Marci M Webber

12/16/2020 1pm

Under the pains & penalties this is the sworn truth.

Exhibit A - AFFIDAVIT in Pleading form:

7

In reference to Page 2 of Marci Webber's federal case against the State of Illinois, IDHS, et.al. the following pages are the sworn truth under the pains and penalties of perjury:

In June of 2012 Marci Webber (myself) was Acquitted as Not Guilty by Reason of Insanity. Under ineffective Counsel She was not apprised of her commitment hearing while falsified IDHS reports were stipulated by her Public Defender. She was never given any independent evaluations Prior nor any evaluations arranged by her public Defender in the years that followed a sort of rubberstamped in-patient

Commitment at Elgin Mental Health Center which has the maximum security for females over and above Chicago Read Mental Health Center where Marci Webber currently has been detained for a year. She was detained at Chicago Read Mental Health Center (CRMHC) for 13 months in 2016-2017.

The following years since Marci's 2012 Commitment without a full, fair hearing have been violative of the dictates of Foucha v. Louisiana, 504 US 71, Sct 1992, the US and Illinois Constitutions, the Illinois Mental Health Code and

Other laws including what flows from Brady v. Maryland, Sct.

Marci's "medical" records have also concealed the cause of the 2010 tragedy and grown in fabrications and legal language to present a Perniciously False Persona of danger to both the trial and appellate Courts as well as the media.

On October 27th, 2020 Judge George Bakalis acquiesced to Marci's request to represent herself over Jennifer Lindt, ASA's and Mary Flemming, Appellate ASA's objections to

be heard on the falsification of her Court reports (see attached exhibits from this issue on record and what will be part of an offer of Proof via youtube link —

* with the correction that it is DuPage not Cook Co.

start → Youtube.com/watch?v=bNY-N
Elaeug&feature=youtu.be → end
↑ (lower case "L") (ampersand)

In addition, at least a couple dozen IDHS employees have expressed the same opinions as Marci's few outside medical experts that testified resulting in the September 18th, 2019 order for IDHS to transition Marci

Out of Custody. Matter of fact in November 2020 Dr. JoAnne Langley (psychologist and past administrator at Elgin) told Marci "you need to go after them for hurting you."

Since Marci was conditionally released, Pro Se, to Successful living (as evidenced on the record) She was wrongfully forced to return to the "Care" of Dr. Anatoliy Pyslar (Psychiatrist) who told her in November 2019, a month

before her December 11th, 2019 release "I'm fine if the judge lets you out... Maybe he feels you've suffered enough". The Supreme Court has dictated that NGR1 acquittees can not be punished yet that is all Marci has received along with outrageously pernicious Slander and libel since she refused the 600mg of Seroquel which was harming her (see Youtube videos listed in attached Rebuttal to the August 13th, 2020 Court report which is what was sent late by CRMHC to be received after her served

Copy was already addressed
On October 27th 2020 resulting
in the Setting of a January
12th 2021 Court date); IDHS
Constantly obstructs.

Marci Vehemently denies
ever being both mentally ill
and dangerous under Illinois
and US Constitutional Standards
except while medicated and
under extreme stress and
trauma in 2010 with Maggie
her beloved, cherished daughter
after Maggie was sexually
assaulted at a Catholic church
and towards herself in 2017
against her desires after

Judge Bakalis failed to release her — a suicide attempt Marci did not follow through on which caused no injury, but IDAs caused.

The Appellate Stay of Judge Bakalis' (presiding since the beginning in 2010) decision was wrongfully obtained with false information then Marci's hands tied from getting to the Illinois Supreme Court by "Contract" with Equip for Equality lawyers and the Illinois Supreme Court refusing

15

to hear argument on the
issue of the Stay because
"the appellate briefing
Schedule had begun."

Marci Should not be forced
to continue to wait out the
appeal while JDHS orchestrates
a worse false persona and
increases violations [on this
December 15th at 12:30 Am
CRMHC started 3x/ week
Security lead room searches
that months ago after a
May 15th, 2020 falsely documented

4th of 4 room searches in 8 days (the others were not recorded) the nurse manager, Adebisi Olesimbo admitted "we know you have a problem with trauma from Security..." and Medical Director, Dr. Robert Sobut admitting at Marci's September Staffing "We know you've been repeatedly traumatized!" knowing with deliberate indifference it is extremely harmful (see the warnings of the years of increases in restrictions on record by Dr.'s Toby Watson, Dathan Paterno and Lesley Kane) to

Marci during COVID-19 restrictions which have not been eased since March in any significant way. The behavior ("Calculated" by the Medical Director, Dr. Robert Sobut) of Staff towards Marci are reminiscent of her days at Elgin woken up by up to 10 security and staff for bogus room searches nearly everyday and the restrictiveness increased upon her at the time of her 2017 release hearing and prior to her wanting it to stop so badly and November 15th

2017 Suicide Attempt seeking release.

Marci has no intention of resorting to Suicide as a means for release ... but is acutely aware of the fact that every human has its breaking point, especially after c. 8 years of straight abuse and nearly no acts of genuine, helpful kindness. She needs to be returned immediately to her apartment and out of the reach of IDHS, and malicious state actors. Please!

Marci M. Kleber

Under the pains & penalties of perjury this is the truth. 12/16/2020

MARCI WEBBER

Defendant

Case No. 10CF2643

The Honorable
George Bakalis

**MARCI WEBBER'S REBUTTAL TO
IDHS' FALSE 90-DAY REPORT
OF 8-13-2020: OCTOBER 21, 2020**

Preliminary

I. Due to years of IDHS increasing
their falsehoods in all of Marci
Webber's reports especially since
the wrongfully obtained Appell-

ate Stay of which they have the power to request its removal this report has been Prepared under an enormous disadvantage and stress for the record as rebuttal. Due to credibility customarily given to doctors (i.e. when Ms. Webber turned herself back into the custody of IDHS She referenced Phone Conversations on her cell phone With Dr. Anatoliy Pyslar only to receive a response from Dr. Pyslar of "I'll deny it, they'll believe me") this report must cover a

21

Significant amount of material while attempting to be concise and brief. Considering Ms. Webber's life is on the line she respectfully requests patience and compassionate deference as a ProSe litigant in a uniquely complicated and adversarial situation.

Under the pains and penalties — and over her own life and Soul which has little value Without her beloved daughters — Marci swears this document to be the truth, unlike IDHS' court reports.

Marci M. Webber
10/21/2020

-3-

II. After years of IDHS Obstructing Ms. Webber's ability to defend herself and be released using the psychological affects of an environment that causes learned helplessness and Stockholm Syndrome as Dr. Toby Watson pointed out and the lowering of I.Q. pointed out by IDHS psychologist Mazahur Khan Ms. Webber will only be able to address some "evidence" that IDHS falsely claims relevant to keeping her locked up in an environment more abusive and restrictive than what Dr.'s Lesley Kane, Toby Watson and Dathan Paterno warned the Court against continuing.

22

The Court already alluded to the dishonesty of the court reports when it leniently expressed "Concern" about the "accuracy" of the Court reports when it opined Ms. Webber would "never receive good therapy with IDHS in the September 18th, 2019 order. The act of release when Webber presented the packet the State's Attorney shoved in a more aggressive manner at Ms. Webber in Court than she has ever exhibited under the outrageous constraints of IDHS speaks volumes. The attached IDHS group sheet (one of many) stating Ms. Webber "is symptomatic but, able to participate" With an attendance "refused" when there have been no groups speaks more! Fraud is pervasive within IDHS!

III. Videos for the record from the following links:

youtube.com/watch?v=quJZmGBwJMM&feature=youtu.be

youtube.com/playlist?list=PLrz95p37EVh-Y9sTwhHnHYp2rKfdl7y9_

youtube.com/watch?v=AF9gceC6J_4&feature=youtu.be

Evince an enormous amount of Context that a dishonest IDHS feels comfortable omitting from court reports and testimony. The fact that all of the videos show Webber as she has appeared numerous times ^(always) before the judge presiding for a decade over her case who released her, ProSe, on December 11th, 2020 bolsters the credibility of Webber and her experts of which in 2 hearings included several IDHS doctors supporting her release despite their opposing, signed court reports.

23

The videos show Webber improving 3 months after refusing to continue 600mg of Seroquel for supposed "Prophylatic" reasons as an antipsychotic despite a pernicious environment since the end of 2013. Just like the description of Webber in Dr. Laura Bauhof's recently submitted affidavit Webber shows "good insight" and "appropriateness of mood." Webber does not exhibit any "screaming" of which Dr. James Concoran falsely testified about and her court reports have since continued. Webber is not as the reports suggest at all. She is able to "modulate her emotions," is not "demanding, oppositional, intrusive, provocative, antagonistic, Profane, derogatory, demeaning..." [or]

grossly inappropriate...[in] social interactions..." Claimed on page 2 of IDHS' 8-13-2020 report.

After reading it on October 19th, 2020 an IDHS employee who interacts with Ms. Webber on most days opined that it is not even an inkling like Marci.

After reading Marci's February, 2020 report IDHS psychiatrist Dr. Anna Rohrbacher opined "this is way worse than you really are."

IDHS psychiatrist Dr. Mir Obaid responded to IDHS' false assertion that Marci has a "persecutory belief system" with an emotional "that's a big lie." A statement - truth - usually suppressed by fear of job loss.

24

This dishonest narrative that Some "Chronic psychiatric disorder or outstanding character pathology" which cause Marci to be some out of control "demanding, harassing, screaming, provoking" mess IDHS puts forth would be easily proved false in a full hearing With her past charts from all 4 of her hospitalizations [i.e. Glens Falls hospital in February 2002 recorded **Zyprexa** causing Marci "agitation". Note: being placed With **IDP** (Intellectually deficient Patients) who **predictably** target, harass, abuse and relentlessly attack Marci almost daily, (like

Antoinette did from 12/23/19 to 6/24/20 while staff had been instructed not to write this very important, emotion-affecting **Context** in Marci's chart) instead of an IDP who would not viciously go after Marci (like Christina who lived entirely peacefully with Marci in 2017) would cause anyone to react as Marci has on select occasions] **80%** of the time Marci has stuffed, **for weeks**, feelings because she has **no** therapeutic services or really effective access to coping tools. Dr. Obaid stated "I'd be worse [than Marci in this situation]" and even had to intervene several

25

Times to mitigate staff cruelly taking a TV/DVD coping tool (attached) which kept Marci completely balanced and calm then "setting [Marci] up" in the exact manner Dr. Obaid told Marci IDHS are "experts" at doing to cause reactions that can be wrongly pathologized. Should Dr. Obaid be locked up because he admits he'd be "worse"? In numerous conversations Dr. Obaid discredits IDHS' characterizations as "not a mental illness". (a complaint that Dr. Obaid wrote - to no avail - is attached)

For example, IDHS falsely claims Marci "blames" when

She hasn't or that her husband had "forced" her into "psychiatric help." She sought out relief for the stress and pain of a **custody battle** as the **most** important thing to her (Mallory) was in jeopardy. She took his advice, **naively**, as well as that of a pill-pushing doctor who did not utilize other methods first or recognize the anxiety and insomnia which emerged from starting **Paxil** were not from "mental illness" as she did not have one before, but

26

in fact from Paxil. Marci never characterized this as "Victimization" and twenty years of insurance codes and records before the 2010 tragedy will show that all of Marci's hospitalizations involved meds unlike IDHS, at this late date after a wrongfully obtained Stay Order, falsely claims. Access to these records to submit to the court and a hearing would prove IDHS to be mendaciously vicious. Marci has never seriously

harmed anyone including herself outside taking meds and 2010's event. IDHS' Claims are proved false also by the fact that they have never petitioned a Court for forced meds even after the 2017 Suicide attempt Marci came to them about while taking benadryl (something Corcoran blamed on 9/6/16 in conjunction with Zoloft which he gave her and discontinued due to Marci getting akathisia in jail during Dr. Wasyliv's testing) and Cyclobenzaprine

27

or Dr. Malis (discredited by this Court) **threatened** in 2015. The bout of akathisia in jail at the end of January, 2011 was not recorded in Marc's Chart but 4 employee-Witnesses have been located.

- Do the math ... With the "Med issue" as reporter Christy Gutowski put it.

The wrongful obtainment of a Stay Order has been **Not** to "Preserve" any "Status Quo" to preserve the "fruits of an appeal" but to "await the outcome of appeal" (pg 2) and

Create a situation to cause Marci to react from harm and Worsen Marci's records just like the past pattern to keep exculpatory material out of Court records in accordance with a psychiatry/medication (see the side effect lists and Equip for Equality's appellate brief) Protection agenda. This is a fraudulent display of Malicious Prosecution on an honest, good "acquittee."

IV. Because Marci sticks to the truth against an IDHs that Puts the Public at risk by not educating patients about akathisia Marci has been placed in excruciatingly abnormal conditions "aberrant" from Community living. It is not rocket science

28

or Dr. Malis (discredited by this Court) threatened in 2015. The bout of akathisia in jail at the end of January, 2011 was not recorded in Marc's Chart but 4 employee-Witnesses have been located.

- Do the math... With the "Med Issue" as reporter Christy Gutowski put it.

The wrongful obtainment of a Stay Order has been **Not** to "Preserve" any "Status Quo" to preserve the "fruits of an appeal" but to "await the outcome of appeal" (pg 2) and

Create a situation to cause Marci to react from harm and Worsen Marci's records just like the past pattern to keep exculpatory material out of Court records in accordance with a psychiatry/medication (see the side effect lists and Equip for Equality's appellate brief) Protection agenda. This is a fraudulent display of Malicious Prosecution on an honest, good "acquittee."

IV. Because Marci sticks to the truth against an IDHs that Puts the Public at risk by not educating patients about akathisia Marci has been placed in excruciatingly abnormal conditions "aberrant" from Community living. It is not rocket science

29

that IDHS is not telling the truth about any "expectation" for Marci to become dangerous again. That type of 2010 "perfect storm" does not have a chance of repeating. For 43 years prior and a decade afterwards Marci has caused no serious harm to anyone.

Dr. Orest Wasylu who testified as the State's Witness at the initial trial opined that but for that 2010 "perfect storm" there was no chance for Marci to harm anyone (see Equip for Equality's Appellate brief). IDHS appears to be trying to "build a case against Marci" (see Nichols, T.'s testimony), cover for the meds and insulated themselves from liability. Marci should be believed over IDHS.

V. First, daily voicemail documentation in Marci's emails are inaccessible due to IDHS "policy." They would evince the opposite of IDHS claims showing that Marci is constantly harassed, threatened (even by staff who gloat "the pen is mightier than your mouth" because staff lie) and verbally or psychologically abused by IDP's (Intellectually deficient patients) and at times staff while no one "intervenes" as IDHS claims. If the Court desires these or any of the audio recordings not turned over in the past it can ask for it. The Videos of Marci speak loud and clear that she is more sane and not dangerous than most released from IDHS (recently a newly discharged male killed himself with meds. Dr. Pyslar's reaction was a non-caring shrug).

• The fact that 1) Marci's "services" have been "calculated" to share harmfully restrictive living quarters with IDP's

30

that predictably target Marci emotionally and physically without relief or allowance of effective coping tools or trauma counseling while all groups have been suspended since March despite the stay at home order being lifted and less than 10 patients on the unit. 2) The "purposes" of the stay order forcing her back have never been met. 3) The false statements, even reaching back 20 years after the judge stated it as no longer relevant, that mislead as to Marci's real psychological health shown on almost a dozen videos from 2013 three months after refusing sequestration to 8/6/2020

have been proven false. 4) Dr. Corcoran testified he had "Successfully" treated Marci in jail (sure, by him discontinuing Zoloft). 5) That Marci never succumbs to any "innate impulsivity" to even defend herself against such as a patient pounding on her head 7 times while Staff told her "impulse"- Satisfying friend Loretta Vaughn to "sit back down" when she got up to protect Marci — Staff rarely intervene (see Mike Sink's affidavit Sent to Judge Bakalis for the record). Marci handles this non-"customary" environment

31

better than Dr. Obaid said
 he would because she alter-
 nates avoidance they char-
 acterize as pathological
 "isolation" by going to her
 room stuffing feelings like
 she's Pavlov's dog from what
 the Supreme Court calls "aversive
 conditioning" to verbally def-
ending herself or venting [not
 because she feels "disrespected"
 but because being bullied and
 staff allowing it hurts and can
 lead to "Depression, anxiety and
 Suicide" (see the books Social by
 Matthew Lieberman and Trauma
and Recovery by Judith Lewis Herman)
 and is not wise to endure as long
 as IDHS is forcing (7 years)]
 6) The judge heard testimony to

evince that IDHS does not "rule out" any "mental illness" but in fact "builds cases against" (see Nichols, Terry's testimony) to mischaracterize med tragedies like Marci's as "psychiatric" and "chronic" versus situational or anything but something they can deplete our tax base with using "services" that are not "reasonably calculated to significantly improve" people, especially Marci, as the Mental Health Code dictates. IDHS says one thing then does the opposite. Knowing this Judge Bakalis wisely, but unfortunately tardily released Marci to the safety of HER OWN APARTMENT. Where she was successfully (see Dr. Laura Bauhof's affidavit, 9/25/20)

32

healing and complying with all the Court's Conditions. This was an apartment arranged by the still supportive (indefinitely) outside system of which the State mischaracterized as "Unknown" after IDHS refused to exercise the 10/13/19 order to view the apartment, meet with Mr. Johnson who is still waiting for a meeting (see bottom of Marci's letter to Dr. Cummings with the writ request recently filed) after a signed lease was tendered in court after providing the information to Marci's caseworker. Telling the appellate court that housing is "Unknown" as the State did to wrongfully obtain a stay order is unethical,

7) Marci did none of the things she is accused of or speculated as at risk of for the couple of weeks she was free. She ate peacefully at the Drake with Terry Johnson, Esq. With whom IDHS refuses to meet and Bob Hanrahan, P.I. took her shopping at various shops in Oak Brook without any of the behaviors IDHS claims presenting. Marci ate at Cooper's Hawk surrounded by wine without any cravings on two occasions. No "aberrant" behaviors, no "screaming" or anything negative (just like in the videos) resulted, Proves IDHS cannot be trusted

33

and their court report should be ignored while Marci is returned to what Judge Bakalis ordered Marci, Prose, to do upon release On December 11th, 2019,

1. This report reveals, especially When compared to Video, audio, testimony, past reports and Common Sense, the **IDHS** "influences" noted in the Court's decision are even harder at work to cover bases worth enough to some people to break the law - Perjury is against the law.

2. IDHS' "services" becoming Worse after Marci attempted

to relieve the pain the only way she could, by Suicide, Show worse than "deliberate indifference" of an acquittee, a human being. It shows how much they want to "shut her mouth" about the meds like Dr. Carole Rosanova told her in 2016 when she said they'd "Sleep deprive [her] into Psychosis" — tried in 2017 after her Suicide attempt, LaTonya Simmons, STA, told Marci "you're lucky you comprehend what's going on." so she could get one hour consecutive sleep LaTonya spared Marci, closing her door while on lil while IDHS refused to tell patients what akathisia is.

34

3. IDHS shows, again, the lengths of exaggeration and falsification it will go to in order to tie (chain) MARCI to a "broken" system that harms her and refuses to treat her as an acquittee and by the merits of her case by mis-characterizing her past alcohol use and need for further "treatment." They refuse to offer the evaluation by Healthcare Alternative Services (whom they employ) recommending only continued counseling after a thorough evaluation and random drug/alcohol test that was negative. They do not state that the DUI's (2) were while on paxil which is known to cause akathisia/alcohol cravings TWENTY YEARS ago or refer

to the information supporting the self-medicating of akathisia by renowned Psychiatrist David Healy or the fact that ~~Marci~~ does not exhibit drug/alcohol seeking behavior (ever - since before 2010) or of making hooch. Page 3 clearly evinces what Jeff York, Esq. told the court in 2017-18; IDHS has no intention of releasing Marci as they keep adding hurdles. Their patronizing, narcissistic, manipulative mis-characterizations suggesting Marci's insight and judgment is deficient when Dr. Bawhof found this untrue upon Marci's release are obscene. Marci knows exactly why she chooses (among a lack of provided choices - see Videos) to behave as

35

She does and the fact that IDHS doctors never **ASK** her why or what she thinks or feels shows their claim as "evidence-based" is false along with their characterization of Marci. It's the "treatment" team's judgment to continue the criminal act of perjury that is "poor." They don't even describe exactly what constitutes "treatment" or how it is supposed to help Marci. Isolating or letting patients beat the crap out of her or bully her (staff do this too and threaten false chart notes to keep her confined in this) which leads normal people—like Marci—into depression and anxiety and even Suicide **then** "blaming" the Victim/Patient resembles "treatment of runaway slaves with "drapetomania!"

All of this would make anyone "angry and embittered"—one of the rarely accurate statements which does not make Marci dangerous. However, IDHS who did not fire the staff, Jim Alm, who brought a knife on the unit which was hanging out of the side, netted pouch of his backpack across the top of a counter of which Marci could not possibly (even according to Dr. Obaid) reach over to access is what is dangerous. Instead they covered for Jim in this report similar to what they did in a previous addendum calling a delusional, lying IDP a "second hand" witness instead of retracting the 5/12/20 cup of water lie as never occurring. It misleads.

36

Here, IDHS constructs this report to cover the fact that the "Satan... Crazy train" note was written by Jim Alm and that he was not even present — Mike Harbin was and conceded the IDP was causing the Problem and Marci was making light of it, This was after **Dr. JoAnne** Langley told Marci she had to report the Knife incident to OIG — Jim and others retaliated. Doing the right thing for Marci always Costs her dearly.

-31-

The other notes are selected and written by vindictive employees like Pat Pearce and Wösenä Oliver-Smith of whom the Court already has affidavits and amendments to support that they are as dishonest as the culprits at Elgin. A hearing is more appropriate a forum to show this since the reports conceal their identities as they refine their cover-up. So Marci asks that the Court give Marci the credibility she is due and IDHS their just desert. The sign on my door (freedom of expression) was "Quis Custodiet Ipsas Custodes..." but they left out "LEAD BY EXAMPLE!"

— Most of the report is not addressed but marci maintains as misleading,

37

From the 1st draft (this has a little repetition but is needed)

When taken in context of the 2017 suicide attempt at Chicago Read while on benadryl (known to cause akathisia) as evidenced by Dr. Corcoran's 9/6/2016 admission that meds ("Zoloft and benadryl" according to him back then) caused Marci's crime. It's a big deal for the Pharmaceutical industry to have to use black box warnings on meds for suicide, but homicide warnings like Canada has is a whole bigger deal. So, maybe an inquiry should be made as to why Marci's Court report at this late date has added this false information on page 3, along with "aggression and sub-

"Stance abuse" when Marci's only
 remotely aggressive act before the
 crime was in self-preservation
 by grabbing the headrest and
 unfortunately the hair of her daugh-
 ter's step mom when the mom
 had a history of refusing to buckle
 the child into a car seat and
 Marci was doing it (half way
 out of the vehicle/half way in)
 When she was called names
 by the step mom and as the
 car was put into reverse the
 scare - exacerbated by effects
 (akathisia) of Paxil Marci was
 taking - caused Marci to grab
 for anything. The step mom took
 advantage of the situation and
 had Marci charged with battery

38

in 1998. Marci did not retaliate
With a charge of endangerment
With the vehicle and completed
a "sentence" of supervision for
a year without incident yet
the charge which was supposed
to be expunged was not. It
takes a lot for Marci to become
aggressive like fearing for her
life while on Paxil and grabbing
some hair. A decade later Marci
has never been physically aggressive
Even when LaToya Nickerson an
extremely violent patient threat-
ened to "snap [her] neck and kill
Marci" and tried or when she tried
to stab Marci in the face with
a pencil then beat on her while

staff stood watch outside the door
 and (Mike Sink's affidavit sent to Judge
 G. Bakalis should be entered here)
 no one was around to help despite
 4 days of LaToya threatening to
 kill Marci — LaToya was not put
 on a one to one by the same Dr.
 Richard Malis Judge Bakalis dis-
 credited, the same doctor who lied
 that Marci was not cavity searched.
 Despite enormously outrageous,
 stressful circumstances daily for 7
 straight years Marci has not
 succumb to any "innate impuls-
 ivity" to even defend herself proving
 she maintains control from behavior
 most people would engage in under
 her situation now that she is not
medicated (see the books SOCIAL by
 Matthew Lieberman, Trauma and

39

recovery by Judith Lewis Herman
and Terror, Love and Brainwashing
 by ~~Alexandra~~ Stern for an idea of
 What Marci is forced to endure
~~then ask~~ What would you do to
 Stop the pain? — What Marci's
 "doctors" know most would do, but
 she hasn't. Ask what IDHS' goal
 is here? Reactions to this horrible
 life are intentionally being mis-
 represented as "episodic mood
 swings" just like Dr. Martinez
 claimed under Corcoran when he said
he fixed [Marci's] court report" in Spring,
 2017 — Look it up. Listen too.
 This Court report like the others
 should be ignored and Marci
 discharged to Safety away from
 IDHS. Marci has never been diagnosed
 with any "chronic psychiatric disorder
 or outstanding character pathology"

RECEIVED - HONOLULU

- 37 -

Outside Corcoran's influence. Marci's insurance coding prior to 2010 "Clearly" refutes this false claim. If Marci's problem the last minute of her precious child's life (See Equip for Equality's appellate brief) or benadryl and flexeril weren't the problem causing her suicide attempt after years of abuse (not as bad as now — why?) in 2017 then why hasn't IDHS forcibly medicated her or even taken her to court as Dr. Malik threatened in 2015? Because Marci is a normal woman off mind/brain altering medications experiencing some IDHS inflicted PTSD symptoms! (See Dr. Laura Bauhof's Affidavit and Drs. Watson and Paterno's testimony. Paterno tested Marci in January, 2020 only to reply "good news

meds weren't

40

you're still not mentally ill." Interestingly Dr. Denise Blumenthal, Past Social Worker director, asked Marci at that same time "is there any diagnosis you'd agree to before the crime?" When Marci told this to Dr. Pyslar this summer Dr. Pyslar asked "what did you say?" Marci's reply was "Sure, PTSD." Pyslar then said "Sure, that's to your advantage." Marci said "how so?" Pyslar said "it helps you if you Sue." So, who's not taking any responsibility while Marci's children suffer poverty and deserve some real compensation instead of false press harming them too? What's wrong with a little truth and responsibility out of the government? No one ^{crime} could endure Marci's "treatment."

Wherefore, Marci Webber respectfully requests the Court issue an advisory Order discrediting IDHS like they deserve for the in-coming judge because quite frankly all this "Underdog fighting the beast" to save her life is killing her or to allow the truth to be presented in a hearing, as soon as possible, With a writ instructing Chicago-Read transport Marci Webber to Court.

Sincerely,

Marci M Webber

Attendance Code: A=Attended; L=Left Group; E=Excused; R=Refused; C=Cancelled; S=Substitution; H=Holiday; O=Other

Data: Staff used interpreter for group ☐ Yes ☐ No ☒ N/A

☒ Lecture ☐ Group Discussion ☐ Handout ☐ Video

Attentive to topic: ☐ Gave/accepted feedback

☐ Followed directions

☐ Passive and did not respond

☐ Disruptive

☒ Other: refused

Assessment: ☐ Patient demonstrates understanding

☒ Patient is symptomatic but, able to participate

☐ Patient is symptomatic and unable to participate in group at this time

Other:

Group purpose is to increase patients' understanding of:

How to recognize and take action to manage and relieve psychiatric symptoms, and when to notify health care professional.

The group expected outcome and treatment plan goals:

☐ Effective, patient applies content to treatment

☒ Not effective at this time but, will continue group goals as follows:

Staff will continue to:

Encourage attendance, encourage participation, and continue patient education per treatment plan.

Additional Comments:

pt refused to join the group, pacing and stiting in the room. Group talked about the importance of understanding the side effects of medications.

When did it Happen?

9.23.2020. 18:00

Describe the Incident/Circumstance:

PT Ms (MW) is C/F following problems that is aggravating her and making her coping skills weak as she is losing hope in this treatment milieu. Following are her complaints.

- 1) PT (MW) is requesting off-unit pass to go to Cafeteria/ activity room
- 2) light exercise, that will help her to allow her frustration
- 3) PT wants a clear directive from treatment team that she can have a bag of "cummy worm candies" to be allowed to have access as much as she wants, helps her with her problem of Bruxism
- 4) she wants to have Soda whenever she feels to have one, at least twice a day
- 5) PT wants a TV (activity thing) a DVD player access most of the time, as she feels those are her only coping tools;

RE: People of the State of Illinois
v.
Marci Webber 2010CF2643

Dear Ms. Webber,

I am in receipt of your recent letter asking to be writ in to address the accuracy of the reports filed by Chicago-Read regarding your continued confinement. This is not an issue that can be presently adjudicated. Your case awaits a decision from the appellate court. If that court affirms my ruling, you will be conditionally released. If my ruling is reversed, you will have to again petition the court for discharge or conditional release.

Until a ruling is obtained, I can only suggest that when you disagree with the reports from DHS, you send a letter to the court to be placed in your file indicating point-by-point your areas of disagreement. Those responses should be concise, not overly long.

Sincerely,

GJBakalis

Exhibit D

45

AFFIDAVIT OF LAURA A. BAUHOF, Ph.D.

Upon first being duly sworn on oath, I, Laura A. Bauhof, depose, and state as follows:

1. Ms. Marci Webber began treatment with me in accordance with her conditional discharge on December 12, 2019. Prior to beginning psychotherapy I had spoken with Ms. Webber by phone approximately 5 times while she was at Chicago-Read Mental Health Center and on the morning of December 12 prior to her appointment.

2. In addition to her appointment on December 12, Ms. Webber also presented for a scheduled psychotherapy appointment on December 17, 2019. At both of her therapy sessions I evaluated Ms. Webber to be appropriately oriented to person, place and time. She did not demonstrate any signs of psychosis. Her appearance was normal and her dress was appropriate. Her mood was anxious and she demonstrated a full range of affect that was congruent to the topic, i.e., when talking about her daughter she was tearful and sad and when talking about her experiences since being released she was smiling and positive. Her memory was intact. Her thought process and perception were both normal. Her interview behavior was appropriate and her speech was normal. Ms. Webber's attention was distractible, which she noted. Her thought content was preoccupied with her recent release from Chicago-Read. Her insight was fair to good. At times the emotional nature of her experiences led to limited insight and a preoccupied focus on traumatic events while she was under the care of IDHS; however, she has consistently recognized that she is likely to experience ongoing difficulties now that she has been released due to the serious nature of the crime. She stated an awareness of being wary of interacting with people in the public settings due to a persistent fear during her confinement of people attacking her. She expressed surprise at experiencing common courtesies such as people saying,

3. "Excuse me," when brushing her in passing. Although she had demonstrated strong emotions, she has kept her voice and speed within a reasonable range; she has not yelled or screamed. She has demonstrated good judgement, indicated her intention to follow the conditions of her release, and has developed coherent and well-thought out plans to meet those conditions.

4. Ms. Webber has not demonstrated any signs of being a danger to herself or to others. While she has expressed anger and resentment about the conditions and length of her confinement, she has not made any statement threatening any individual involved in her case. To my knowledge she has interacted safely and appropriately in all public settings.

5. Ms. Webber does not demonstrate any symptoms of a severe mental illness including psychosis, severe depression, or bipolar disorder. An alcohol abuse assessment performed by Health Care Alternative Services concluded that she does not require ongoing treatment at this time. Ms. Webber does demonstrate distractibility, hypervigilance, sleep disturbances and avoidance of stressors that are consistent with symptoms of post-traumatic stress. I believe that these symptoms cannot be effectively treated for her in the inpatient settings at either Chicago-Read or Elgin Mental Health Centers.

AFFIDAVIT OF LAURA A. BAUHOF, Ph.D.

Upon first being duly sworn on oath, I, Laura A. Bauhof, depose, and state as follows:

1. Ms. Marci Webber was in psychotherapy treatment with me in accordance with her conditional discharge from December 12 to December 17, 2019. Her outpatient treatment was disrupted when she returned to Chicago-Reed Mental Health Center to comply with a court order on December 23, 2019. I have been in periodic contact with Ms. Webber by phone and she has indicated that she is interested in continuing treatment with me when she is discharged.

2. I have been conducting telehealth psychotherapy since March 20, 2020 as a result of the Covid-19 pandemic. If Ms. Webber is discharged while social distancing is still recommended, I am available to continue telehealth psychotherapy with her via video sessions.

3. If there are any questions regarding this assistance, please feel free to call or contact me as follows:

Chris Kachunbas

CLERK OF THE
18TH JUDICIAL CIRCUIT
DUPAGE COUNTY, ILLINOIS

PEOPLE OF THE STATE OF
ILLINOIS

Plaintiff

v.

MARCI WEBBER

Defendant

Case No. 10CF 2643
The Honorable
GEORGE BAKALIS

PETITIONER'S MOTION TO SET THREE HEARING
DATES IN OCTOBER OR EARLY NOVEMBER, 2020
TO HEAR EVIDENCE THAT IDHS CONTINUES TO
FALSIFY COURT REPORTS, REVIEW TREATMENT
PLAN AND IN THE EVENT OF AN APPELLATE
DECISION TO HEAR ANY ISSUES ON REMAND

Preliminary

1. Marci Webber proceeds Pro Se as a litigant
forced to reside at Chicago Read Mental

50

Health Center on an acute civil unit without therapeutic services in a largely procrustean, but unequal environment as if it is a holding pen to wait out an appellate process resulting from an improperly served "Emergency" motion to Stay Judge George Bakalis' December 11th, 2019 decision using false information and received via regular mail the same day it was granted, the day a response was due. It's supposed to

"Preserve the Status Quo" to ensure preservation of the "fruits of the merits of the State's Appeal," a "status quo" that actually was in the community and has not even come close to mirroring the "Status quo" on December 11th, 2019 prior to release and fails miserably, except to harm Webber, perhaps intentionally.

2. Webber has no access to legal resources, the internet, a computer or equitable use of her chart. She has no way to show the court that in July or August of 2019 Bradley West, her attorney of record then, successfully argued that the court does in fact have

51

Jurisdiction outside the time frame on appeal and can and in the interest of equal Justice should hear evidence of falsified reports, chart notes and an environment calculated or knowingly allowed to harm, not help Webber in a spirit of retaliation.

3. The court leniently expressed concerns regarding the "inaccuracy" of IDHS' court reports and disregard for the court's instructions in opposition of their cruel treatment of Webber and to transition Webber out of custody trying to fulfill both the dictates of Foucha v. Louisiana and IDHS' "program" which treats NGRI's very differently than civil commitments whose "Mental illnesses" whether Situational, temporary or supposedly biological are fundamentally the same and should ~~be~~ be detained "no longer" than they are "mentally ill" and dangerous from that "mental illness" causing their conduct that constituted the crime they were charged with. The law is clear that Mental hospitals are not holding pens and are only to

52

be used to "treat" patients who are "reasonably expected" to commit "serious bodily harm" due to that "mental illness" not to punish or try to cause conduct any normal person might commit when trapped ~~and~~ abused or to falsely imprison for any other reason even political reasons, for a decade, a year, a month, a week or even a day as freedom is this country's core value as exemplified in Foucha v. Louisiana.

4. The false persona on paper of Webber has now harmed her grandchildren and continues to harm her daughters and Webber now to an outrageous degree. Regarding only Webber, the increasingly false statements and "dirty Pool" as one employee of IDHS called it has also caused the excessive restrictiveness that Dr. Lesley Kane, Dr. Toby Watson and Dr. Dathan Paterno warned the court of. Webber receives no therapeutic treatment as requests to do therapy with Dr. Craig Jock or for testing and therapy with Dr. Chuck Strava or tele-

53

Counseling with Dr. Laura Bauhof who was successfully treating Webber the latter half of December while the State argues Webber's cruel detainment should be continued "Simply because she is unsuccessful" with IDHS' "treatment" on an appeal even IDHS legal told Randy Kretchmar, esq. was a loser.

5. Despite years of increasingly harmful "treatment" Webber has remained non-dangerous and sane even amongst over 300 — most not reported to the court or in her "medical" chart — room searches (only one of 4 in 8 days was charted in mid-May, 2020), an emotionally vicious cavity search which was documented only in a restriction of rights as the result of a false accusation that her attorney was "trying to sneak in contraband" over 40 (nearly all without a hint of true "provocation")

Physical attacks on Webber (5 by staff), no access to regular exercise in their gym for 5 years,

- 5 -

54

being housed with abusive, relentlessly antagonizing IDP's (intellectually deficient Patients) who are allowed to abuse Webber until she is forced to defend herself verbally so she won't become situationally depressed by having to isolate from a unit she does not leave-over-for IGP (Independant Grounds Passes) into her room while these incidents are not recorded in her chart unless she reacts verbally and it is exaggerated, twisted and taken out of context — the context including normal behavior as a result of abuse. Dr. Mir obaid called IDHS employees "expert manipulators of situations and behavior" in which they wrongly pathologize. This falls in line with the testimony Terry Nichols, RN was allowed to briefly offer in which they use for Patients, to "build a case against" for purposes such

as forced medication. This actually amounts to medical malpractice and is fraudulent. Psychiatrists Dr. Mir Obaid and Anna Rohrbacher who have known Webber and interacted or observed her since 2016, more than any IDHS doctor, stated Webber is not currently "mentally ill," does not need meds but needs a discharge (like Civil Committees get) and that her behaviors are normal ~~for~~ the harsh environment. Even her own current psychiatrist stated she would have been released if she were a Civil Patient — "Mental Illnesses" are fundamentally the SAME! Dr. Anatoliy Pyslar, just like the testimony in 2017, points to administration for this fake imprisonment.

56

On November 19th, 2019 Dr. Pyslar told Webber he was "fine if the judge released her," that "Most likely [she] would be fine" and that Webber did not meet the criteria for bipolar NOS which he offered as if it is some sort of consolation that bipolar is "less severe" than Dr. Richard Malis' diagnosis of "schizo-affective" because IDHS "can't go back on their lies" — lies that many staff and doctors confirm are pervasive within IDHS, lies used to tie Webber to a "broken, harmful system," despite her acquittal and overwhelming proof that she is not currently "mentally ill and dangerous." Dr. Orest Eugene Wasyliu was clear prior to the initial trial that the "perfect storm" of situation, multiple medications, an abrupt withdrawal due to memory problems before Webber resumed medications indicated there was "no chance whatsoever" for Webber to harm

anyone. Considering Webber's daughter had been sexually assaulted prior to Webber's medication problems, the fact that she had never caused anyone any serious injury before or since her very unwanted tragic but well-intentioned psychotic conduct proves the system with IDHS has failed her grossly.

6. Dr. Mir Obaid and Dr. Anna Rohrbacher are more experienced IDHS psychiatrists than Dr. Anatoliy Pyslar who has been assigned to "treat" Webber. These two psychiatrists have known, interacted and observed Webber since 2016 — Dr. Pyslar has known Webber since October 2019. All three have indicated consistently with the testimony of IDHS doctors in 2017 that "Administration... Dr. James Corcoran"... refuses Webber's release not because of the legally required

reasons. Dr. Obaid and Dr. Rohrbacher have told Webber "[she] does not need meds...[she] needs a discharge," that she is not currently "mentally ill" and has "every reason to be angry and sad." They, along with Dr. Pyslar express recognition that the "milieu" is causing her distress that is normal. After Webber's 2019 release Dr. Pyslar stated into Webber's cell phone that she seemed "like a new person, calm" and when she stated it was due to the change in environment he agreed, however after her December staffing accused her of "throwing [him] under the bus" for defending herself by mentioning the 2 calls with Dr. Pyslar and calls with other employees. Webber should not have to continue to express IDHS-inflicted

59

learned-helplessness and Stockholm Syndrome when it helps allow IDHS to falsely imprison and harm Webber just so employees don't have problems with administration and **can** keep their jobs. On December 26th, 2019 Director of Psychology Debra Marsico reneged her promise that "[Webber could] keep her apartment if [Webber] did the front Door Diversion Project" — a project she interviewed with about 8 months ago — after Medical Director Robert Sobut joined the "treatment" team. Many people have told Webber that Dr. Corcoran ... administration are "influencing" staff to detain her. Dr. Mir Obaid said they are "expert manipulators" and retired UofC mental health law professor Mark Heyrman blamed Dr. Corcoran who "thinks this is alternative sentencing, ... is a

60

Political animal Keeping [Webber] locked up so [she] can't sue..."

Every staff, dozens, Webber has asked whether they think she is "mentally ill and dangerous" denies any fear of her. Even Dr. Obaid told her in 2017 that he would have no problem with her playing with his grandchildren at a park, alone, and recognizes her as a non-dangerous asset to society just like she was many years before the tragedy when she tutored children after her law school classes, coached and cared for young children at the YMCA and taught children art in Upstate New York's impoverished local libraries. One anomaly of an event does not define anyone nor Webber but a witch-hunt of harm and retaliation can destroy even Webber who has shown a decade of

61

resilience via no relapse, Webber's supposed "behavior problems" are normal for someone being abused. She has the same complete support system as she had upon discharge with conditions. Dr. Gail Tasch, M.D. psychiatrist evaluated Webber on August 13th 2020 and indicated Webber is not currently "mentally ill" or "dangerous." After testing Webber in January of 2020 Dr. Nathan Paterno indicated the same. The problem is IDHS' "treatments" and housing of Webber as well as politics evinced by Mark Heyrman, Esq.'s statement that "IDHS has no incentive to release [Webber] because [she] will only prove them wrong." The recent Video Affidavit to be made part of the record from August 6th 2020 at [youtube.com/watch?v=q4JZmGBwJMM&feature=youtu.be](https://www.youtube.com/watch?v=q4JZmGBwJMM&feature=youtu.be) as well as the playlist of videos to be made part of the record at

[youtube.com/playlist?list=PLrz95p37EVh-Y9sTwhHnHYp2rKfd17y9_](https://www.youtube.com/playlist?list=PLrz95p37EVh-Y9sTwhHnHYp2rKfd17y9_)

evinced a heartbroken, resilient, non-dangerous sane Webber the system is grossly failing.

[youtube.com/watch?v=AF9gdeC6J-4&feature=youtu.be](https://www.youtube.com/watch?v=AF9gdeC6J-4&feature=youtu.be) shows this too.

Wherefore, Webber respectfully and

62

desparately requests this Court allow Webber, ProSe, to conduct a hearing using witnesses she needs to prove IDHS and the State continues to ignore her acquittal and the dictates of the law and human decency by arranging cruel conditions and continuing to falsify reports indicating that they have no intention or good will towards Webber's restoration or release. Webber needs to be discharged as soon as possible to her support system which includes Terry Johnson, Esq. and Dr. Gail Tasch. Ideally she should be discharged so she can take the job and use the support system in Arizona provided by Stelia Corniciuc as testified to in 2017. Webber requests an order for discovery of all documentation organized like the State gets including all emails referring to Webber within IDHS to be executed immediately due the high burden of proof with subordinates and

-14-

63

and layers of management "influencing"
 - noted in the September 18th, 2019
 decision - a Perjurous, pernicious
 Persona of Webber. Webber also requests
 a Writ for Chicago Read to ensure her
 appearance for 3 days of testimony,
 Preferably consecutive and a copy
 mailed of all correspondence to be in the
 care of Terry Johnson at 505 E. Illinois
 Street, North Pier, Lower Level #1,
 Chicago Illinois (312) 922-4022 due
 to the constant frustration and withholding
 of Webber's mail causing her to miss a
 September 22nd, 2020 appearance as
 referenced in a letter the day she received
 the court's mail sent on September 23rd, 2020.
 Webber requests an order to be allowed
 to eat in the Courts' Cafeteria to alleviate
 the stress of 3 full days of Testimony,
 having to return to an overly harsh environment.
 Respectfully, Please include a writ to Chicago Read for
 transportation of Webber to court.

Marcia M. Webber 9/24/2020

65

Dear Clerk of Court 9/23/2020

As of 9/23/2020 I am now aware of the court date set for me on 9/22/2020 - yesterday! I received your mail post marked 9/9/2020 at 3:45 today. I received mail from fed. court post marked 9/11/2020 yesterday and a letter from Akin law firm post marked 9/17/2020 also yesterday. I have had numerous problems with IDHS giving me mail and now have missed an important court date. I have asked Terry Johnson for help and will be filing a motion electronically through his office asap asking for 3 hearing dates at the end of Oct or early November before Judge Bakalis retires. I ask that you please try to have these 3 days consecutive and issue a writ with any correspondence copied to Terry Johnson's office for me at 505 E. Illinois St. North Pier Power level #1 Chicago, IL 60611 in case IDHS withholds my mail again. If possible please call me at (773) 794-3950 to communicate dates & to (312) 922-4022. Thank you, Monica L. Baker

66

AFFIDAVIT OF LAURA A. BAUHOF, Ph.D.

Upon first being duly sworn on oath, I, Laura A. Bauhof, depose, and state as follows:

1. Ms. Marci Webber began treatment with me in accordance with her conditional discharge on December 12, 2019. Prior to beginning psychotherapy I had spoken with Ms. Webber by phone approximately 5 times while she was at Chicago-Read Mental Health Center and on the morning of December 12 prior to her appointment.

2. In addition to her appointment on December 12, Ms. Webber also presented for a scheduled psychotherapy appointment on December 17, 2019. At both of her therapy sessions I evaluated Ms. Webber to be appropriately oriented to person, place and time. She did not demonstrate any signs of psychosis. Her appearance was normal and her dress was appropriate. Her mood was anxious and she demonstrated a full range of affect that was congruent to the topic, i.e., when talking about her daughter she was tearful and sad and when talking about her experiences since being released she was smiling and positive. Her memory was intact. Her thought process and perception were both normal. Her interview behavior was appropriate and her speech was normal. Ms. Webber's attention was distractible, which she noted. Her thought content was preoccupied with her recent release from Chicago-Read. Her insight was fair to good. At times the emotional nature of her experiences led to limited insight and a preoccupied focus on traumatic events while she was under the care of IDHS; however, she has consistently recognized that she is likely to experience ongoing difficulties now that she has been released due to the serious nature of the crime. She stated an awareness of being wary of interacting with people in the public settings due to a persistent fear during her confinement of people attacking her. She expressed surprise at experiencing common courtesies such as people saying,

3. "Excuse me," when brushing her in passing. Although she had demonstrated strong emotions, she has kept her voice and speed within a reasonable range; she has not yelled or screamed. She has demonstrated good judgement, indicated her intention to follow the conditions of her release, and has developed coherent and well-thought out plans to meet those conditions.

4. Ms. Webber has not demonstrated any signs of being a danger to herself or to others. While she has expressed anger and resentment about the conditions and length of her confinement, she has not made any statement threatening any individual involved in her case. To my knowledge she has interacted safely and appropriately in all public settings.

5. Ms. Webber does not demonstrate any symptoms of a severe mental illness including psychosis, severe depression, or bipolar disorder. An alcohol abuse assessment performed by Health Care Alternative Services concluded that she does not require ongoing treatment at this time. Ms. Webber does demonstrate distractibility, hypervigilance, sleep disturbances and avoidance of stressors that are consistent with symptoms of post-traumatic stress. I believe that these symptoms cannot be effectively treated for her in the inpatient settings at either Chicago-Read or Elgin Mental Health Centers.

6. If there are any questions regarding this assistance, please feel free to call or contact me as follows:

AFFIDAVIT OF LAURA A. BAUHOF, Ph.D.

~~Upon first being duly sworn on oath, I, Laura A. Bauhof, depose, and state as follows.~~

1. Ms. Marci Webber was in psychotherapy treatment with me in accordance with her conditional discharge from December 12 to December 17, 2019. Her outpatient treatment was disrupted when she returned to Chicago-Reed Mental Health Center to comply with a court order on December 23, 2019. I have been in periodic contact with Ms. Webber by phone and she has indicated that she is interested in continuing treatment with me when she is discharged.
2. I have been conducting telehealth psychotherapy since March 20, 2020 as a result of the Covid-19 pandemic. If Ms. Webber is discharged while social distancing is still recommended, I am available to continue telehealth psychotherapy with her via video sessions.
3. If there are any questions regarding this assistance, please feel free to call or contact me as follows:

NGRI BLUEPRINT FOR DISCHARGE
(Minimal Requirements)

1. Accept that you have a mental illness.
2. Know your diagnosis.
3. Know your medications and what they do.
4. Know at least six symptoms of your mental illness.
5. Know how your mental illness influenced your crime and have remorse.
6. Accept responsibility for your mental illness.
- * 7. Acknowledge the need to remain in treatment after discharge and to continue to take medications.
8. If you have a substance abuse diagnosis, admit that you have a substance abuse problem.
9. If you have a substance abuse problem stay in treatment for it all the while you are at EMHC, to include MISA, unit groups, Individual Substance Abuse Counseling, AA, other outside groups and organizations that come into the hospital - not just MISA for three months and then nothing else.
10. Have a relapse prevention plan in place and be able to talk about it. It must include symptom identification. If there is a substance abuse problem, know the warning signs of relapse and have a relapse prevention plan in place and be able to talk about it.
11. Be able to talk about what professional and social supports you will have in the community.
12. Be able to accept outpatient restrictions of a conditional discharge.
13. Know what your risk factors are. Address all risk factors with treatment interventions recommended by the treatment team and have good attendance.
14. Be able to talk about some clearly defined future goals for yourself in the community.
15. Be willing to work on those aspects of personality that contributed to your being in the hospital and that may be keeping you here.
- * 16. Obey unit rules and avoid conflicts with others.

Describe the Incident/Circumstance:

PT Ms (MW) is of following problems that is aggravating her and making her coping skill weak as she is losing hope in this treatment milieu. Following are her complaints.

1. PT (MW) is requesting off-unit pass to go to Cafeteria/ activity room/ light exercise, that will help her to allay her frustration.
2. PT wants a clear directive from treatment team that she can have a bag of "gummy worm candies" to be allowed to have access as much as she wants, helps her with her problem of Bruxism.
3. She wants to have Soda whenever she feels to have one, at least twice a day.
4. PT wants a TV (activity room) a DVD player access most of the time, as she feels those are her only coping tools.

Witnesses to incident (please print):

1. Mr. [Name] MD psych

THAT ARE NO GROUPS NOW! COVID-19 restrictions

Exhibit H

There have been no groups since March 2020

73

* This "group" like the others was never held

Unit B-SOUTH

Patient Name WEBBER, MARCI

Patient ID 000906420

Medication Management

Group Leader Name (Please, print full name)	Group Date	Attendance Code	Start Time
Joseph, Sanitha	9/16/2020	R	1100

Attendance Code: A=Attended; L=Left Group; E=Excused; R=Refused; C=Cancelled; S=Substitution; H=Holiday; O=Other

Data: Staff used interpreter for group ☐ Yes ☐ No ☒ N/A

☒ Lecture ☐ Group Discussion ☐ Handout ☐ Video

Attentive to topic: ☐ Gave/accepted feedback
☐ Passive and did not respond
☒ Other: refused

☐ Followed directions
☐ Disruptive

Assessment: ☐ Patient demonstrates understanding
☐ Patient is symptomatic and unable to participate in group at this time
☒ Patient is symptomatic but, able to participate
Other:

Group purpose is to increase patients' understanding of:

How to recognize and take action to manage and relieve psychiatric symptoms, and when to notify health care professional.

The group expected outcome and treatment plan goals:

☐ Effective, patient applies content to treatment

☒ Not effective at this time but, will continue group goals as follows:

Staff will continue to: Encourage attendance, encourage participation, and continue patient education per treatment plan.

Additional Comments:

pt refused to join the group, pacing and stiting in the room. Group talked about the importance of understanding the side effects of medications.

Never accused of (= trying to make me look manic)

Guidelines for Staff in Working with Marci Webber (est. 10/2/19)

General Suggestions for Interaction

- Set and enforce boundaries that are clear and consistent, and that adhere to unit/hospital expectations and regulations.
- Ms. Webber should receive verbal redirection if she displays verbally abusive/inappropriate language. If inappropriate behavior persists after 1 prompt, Ms. Webber escorted grounds pass privileges (once earned) will be suspended for 24 hours. Additionally, if the inappropriate behavior persists, staff should also walk away from her and ignore her behavior/commentary. Do not engage in a power struggle with her.
- Ask Ms. Webber to prepare for meetings with staff by writing down her questions or concerns ahead of time. Any topics identified as already addressed (e.g., her current NGRI status, complaints regarding her past/present care, unit expectations and regulations) will not be entertained repeatedly.
- Staff will show Ms. Webber where the phone numbers for advocacy agencies are located and explain the usual avenues to place complaints. Any and all allegations of abuse or neglect will be addressed immediately per CRMHC protocol. Staff will provide all necessary medical attention deemed appropriate per CRMHC protocol.
- Staff should make efforts to validate Ms. Webber's concerns and complaints (e.g., "I hear what you are saying," "That sounds very frustrating," etc.)
- If you do not have an answer for Ms. Webber, or are unsure of the proper answer, state the following: "I will check with the treatment team and get back to you."

Room Searches

To ensure that her treatment plan is followed with respect to food, contraband and restricted use items in her room, staff will conduct random room searches, at minimum, three (3) times per week. These searches are to follow CRMHC policy and procedure including initiating a restriction of rights, as needed. Searches should be conducted by a minimum of two (2) staff, one of whom must be a Security Officer. Each time that items are found that violate Ms. Webber's treatment plan with respect to food, contraband, restricted use items and proper storage of belongings, a Security Incident Report must be completed. During these searches, staff will ensure that loose papers fit in her 2 accordion files. If they do not, the papers should be removed and placed in the plastic bag used to store her papers on the unit. Staff should ensure that they check the ceiling and vents, under furniture and under her mattress. They should also check for items hidden in her pillow and mattress.

Consumer Searches

Searches will follow CRMHC policy. All searches of the consumer will be conducted by a minimum of two (2) staff, one of whom must be female. For the initial search, Ms. Webber should be placed in a gown and should she refuse to be searched, a restriction of rights form will be initiated. When searching Ms. Webber, staff should not make physical contact with her. She should be asked to empty her pockets and shake out her garments. Socks, shoes and sleeves should be checked carefully. If warranted in future searches, a restriction of rights form can be completed, and Ms. Webber can be placed in a gown.

Staff Meetings/Interactions with Ms. Webber

Staff should not meet with Ms. Webber alone. A second staff is not necessary in group treatment situations.

Releases of Information (ROIs) for Private Attorneys

The Social Worker should obtain releases of information for each of Ms. Webber's (private) attorneys of record. ROIs are not needed for ASAs (Joe & Jennifer Lindt) or APD (if one is assigned)

Medications

ALL medications MUST be crushed or given in liquid form.

Ear Plugs

Ms. Webber is permitted to use her plastic/rubber/foam earplugs to assist with sleep. These are to be kept in the Restricted Use Item cabinet when not in use, and given to Ms. Webber at bedtime.

Staff Cellular Phones

Do not use your personal cell phone at the request of Ms. Webber for any type of research or inquiry.

Document Copies

Copies of documents should be limited to five (5) sets per week. Ms. Webber's Social worker will make the copies and should keep track of the number of copies that are made.

Documentation

The assigned Nurse and MHT shall complete daily shift notes. All other staff are to document both notable positive and negative interactions with Ms. Webber by the end of the shift in which they occur.

Data for Court Reports

Every Friday, the Social Worker will scan/email the preceding week's Progress Notes to Dr. Debra Marsico, Forensic Coordinator. Dr. Marsico will highlight the notes that will subsequently be transcribed into a Word document by Ms. Edna Coleman, Administrative Assistant. Having each note already in Word format will expedite the data collection for Court Reports.
